Marine Navigation and Space Systems

Jon Malay

Getting from one place on the edge of an ocean to another (and back safely) was a daunting challenge to mariners of ancient times. Putting out to sea still presents its dangers, but the advances in navigation make it possible. The first hour of the presentation will discuss the history and the application of science and technology to marine navigation. In the second hour, we chart the progression of humanity's use of space systems – beginning with the USSR's Sputnik and how it led to the invention of satellite navigation in America. (Sponsored by Randy Fennemore)

Wednesday September 13 10am-noon NO LOCATION

From Sicily to Fredericksburg: Making Dreams Come True

Danilo Orafino

Local restauranteur Danilo Orafino will share his story with us. Danilo grew up in Palermo, Sicily where he studied the culinary arts. With no knowledge of the English language, he bravely left for America to follow his dream of opening his own restaurant. Join us to learn how that dream led him to Fredericksburg and the opening of a very popular Italian restaurant. Danilo will also conduct a cooking demonstration during the second hour of his presentation. (Sponsored by Donna Lewis)

When the Union Army Raided Stafford Courthouse and Land **Acquisition in Colonial Stafford**

Jerrilyn Eby MacGregor

Jerrilynn MacGregor will present two one hour talks. Talk 1: Stafford County was devastated by the effects of the Civil War. While no battles were fought there, fourteen months of Union occupation decimated those areas of the county in which were camped in excess of 200,000 troops. Multiple raids on Stafford's courthouse resulted in the loss of about two-thirds of the county's court records. The effects linger today. Talk 2: Also, if you own property in the region, you will be interested in learning about colonial land acquisition and development. (Sponsored by Charlie Fennemore)

4 **UMW Stafford Campus Library**

Book Group — The President is a Sick Man by Matthew Alegeo

Chuck Watkins

The previously untold story of the mysterious disappearance of Grover Cleveland. The coverup of his serious illness and his medical treatment make for a surprisingly compelling read. (Sponsored by Dot Meyers)

Knock, Knock, Neologisms, and Naughty Words: The Structure of Jokes and Other Verbal Humor **Gary Richards**

Gary Richards, a professor at Mary Washington, introduces the basic theories of verbal humor, drawing in particular upon the work of Sigmund Freud and Simon Critchley, and invites participants to consider what they find amusing and—more important—why they find it funny. (Sponsored by Peggy Gratz)

Wednesday September 20 10am-noon Klein Theatre

Play Discussion — Vanya and Sonia and Masha and Spike by **Christopher Durang**

Gregg Stull

Vanya and Sonia have devoted their adult lives to caring for their aging parents, while sister Masha flitted about the world living the carefree life of a successful Hollywood actress. When Masha brings her latest boy toy, Spike, to the family home for a weekend rendezvous, tensions rise as long-held sibling resentments bubble to the surface. Throw in a costume party, a clairvoyant housekeeper, and a gentleman caller and Christopher Durang's Vanya and Sonia and Masha and Spike proves uproarious, touching, and completely irresistible. Tickets will be available during/after class. Box Office 654-1124. ElderStudy members may bring non-member guests to this session. (Sponsored by Bob and Carole Hanus)

The Economics of the Trans-Atlantic Slave Trade

Samuel Castilla

The transatlantic slave trade was a complex international system of commerce whereby goods and services were exchanged for the labor and lives of African people. This exchange, which spanned five centuries, would leave in its wake immeasurable destruction, suffering and pain, but would also usher in the modern day world in which we live. In this lecture, we will explore the economics of the transatlantic slave trade in order to better understand its origins, development, decline and enduring impact. (Sponsored by Chuck Johnson)

The Nitty Gritty of the Down and Dirty: Archeology in Fredericksburg

Kerri S. Barile

Kerry Barile, Ph.D, will discuss the field of archeology that has been in practice for hundreds of years. He will discuss how Thomas Jefferson scientifically explored a Native American burial mound near Monticello in the early 1770s, and researchers from the Smithsonian studied scores of sites in the late 19th century. Dr. Barile will explain how the homes of our colonial founding families became a focus in the 1930s, as emerging nationalism brought forth a renewed interest in American history. Today, archeological digs and the artifacts they uncover are the subject of television shows, movies, podcasts, and more. But how does Fredericksburg fit into this worldwide interest in underground history? This talk will focus on the field of archaeology: the methodology, where to dig, and what notable finds have been found in Fredericksburg. Our past is everywhere in America's "Most Historic City" — especially right below our feet! (Sponsored by Randy Fennemore)

Tuesday October 17 1pm–3pm CLL

Networking: Keeping You Engaged

Lynne Richardson

Dr. Lynne Richardson, Dean of the College of Business, UMW, will lead this interactive session on networking. Learn why networking is important to your mental and emotional health, determine common connections you have with others, and find ways to help the younger generation network more effectively for career opportunities. Networking is essentially "collecting connections" and then sharing them with others. After Dr. Richardson's talk, we will conduct our fall General Membership Meeting. (Sponsored by Anne McGrath)

Wednesday October 18 11am–12:30pm CLL	General Membership Meeting	This is the open forum designed to communicate directly with your fellow members, to better learn how ElderStudy works, to better understand the issues that are facing the organization, and to vote on those critical issues facing us. In addition, new members can meet and develop friendships with like-minded persons, and long term members can renew old friendships. A delicious table of drinks and goodies makes the meeting even more enjoyable. (Chaired by Jack Allison)
Thursday October 19 1pm–3pm CLL	Curriculum Committee Meeting III	The Curriculum Committee is responsible for planning the approximately 40 programs that are scheduled each semester. Tuesday October 24 10am-12:30pm CLL	The Academy Awards Best Pictures: Hollywood and the Computer Age, 1990–1994 Gary Olsen	Hollywood embraced the technology of computers as Computer Graphic Imagery (CGI) was advanced enough to visually make a huge impact on the way movies looked on the big screen. Terminator 2 and Jurassic Park took CGI to a new level, transporting audiences to time periods and new worlds never seen this realistically. The Academy recognized these advancements by nominating movies that embraced the new technology such as Ghosts and The Shawshank Redemption as Best Picture nominations. (Sponsored by Alan Zirkle)
Wednesday October 25 1pm-3pm NO LOCATION	The Great War and the United States Porter Blakemore	Associate Professor of History Porter Blakemore will look at the European origins of the Great War, the role of the United States before 1917 and the reasons why the country entered the conflict in April of that year. He will also discuss the personality of Woodrow Wilson and his foreign policy views at the time of the U.S. entry. He will detail America's economic and military contribution to the allied victory in 1918, John J. Pershing's role, and it will also provide a sidebar look at the wartime exploits of the young George S. Patton, Jr., the U.S. Army's best field commander in the Second World War. Finally, Professor Blakemore will conclude with material on the successes and failures of the Paris Peace Conference of 1919, the pivotal role of Woodrow Wilson and the legacy of the war. (Sponsored by Carolyn Sulima)

Academy Awards Best Pictures: Technology in the Home Transforms the Movie Business, 1995–1999

Gary Olsen

VHS, DVD, Netflix, TiVo all contributed to a changing dynamic in Hollywood during this period as huge conglomerates jumped into the film industry. Sony, Viacom, Comcast, General Electric, among others dove invested millions into the industry, realizing that films could be delivered over several platforms for enormous profits. Smaller, independent studios, including Dreamworks and Miramar, were equally successful in establishing a niche by focusing on smaller, cheaper films. The impact of this new business model was not lost on the Academy, as it recognized independent films such as Jerry Maguire, Life Is Beautiful and Good Will Hunting as Best Picture nominees. (Sponsored by Alan Zirkle)
